PREFACE.

IN compiling the fourth series of the HAND-BOOK AND DIRECTORY, for the County of ALAMEDA, I have endeavored, as in the preceding issues, to obtain and give the correct name and residence of all permanent inhabitants, noting occupation, location and post-office address of each.

I desire also to inform the public that this work is one number of a series which will form, when complete, a Hand-Book and Directory of the State, engrossing the names of all residents.

I hope to have the support and patronage of the public in this undertaking, and shall always strive to merit it by making my publications valuable through their completeness and reliability.

THE PUBLISHER.

Stage and Lyceum Aspirants all go to PROF. VAN DeMARK for Instruction.

TABLE OF RATES OF DOMESTIC POSTAGE.

The following are the rates of postage on DOMESTIC MAIL MATTER of the different classes:

NOTE.—All Domestic Mail Matter (except newspapers, magazines and periodicals sent to actual subscribers for known office of publication) must be prepaid by postage stamps.

A letter on which *one full rate* of postage is prepaid, but on which further postage is chargeable, will be forwarded when deposited in a postoffice, charged with the unpaid postage to be collected on delivery. If the postage is left *who unpaid*, or is prepaid *less than one full rate*, it will be "held for postage" and sent to the Dead Letter Office. Should reach its destination by inadvertence, however, it will be charged with *double postage* on delivery. "One full rate means, in the case of mail letters or other first-class matter, three cents.

If articles chargeable with different rates of postage are sent together in one package, the higher rate must be paid on the entire package; but two or more different articles, each chargeable with the *same* rate of postage, may be sent in one package on payment of that rate on the whole package.

The following are EXCLUDED FROM THE RATES: Liquids, Poisons, Glass, Explosive Materials, Books, Pamphlets, Pictures and other publications of an obscene or indecent character; all letters upon the envelopes of which, and postal cards upon which, scurrilous epithets are written or printed or engraved; or disloyal devices printed or engraved; and articles which from their form or nature are liable to destroy, deface or injure the contents of the mail bags or the post of any one engaged in the postal service.

STAMPED ENVELOPES.

The attention of the public is called to the advantage of using Stamped Envelopes rather than Postage Stamps. Daily, numbers of letters are dropped in the Post Office without prepayment, with Revenue Stamps, and Stamps on Stamped Envelopes affixed, which are held for postage; whereas, by the use of Stamped Envelopes, these letters are forwarded without delay.

Persons purchasing Stamped Envelopes of any denomination, in quantities of 500 and upward, may have names and request to return in a specified time printed thereon—not to exceed four lines—free of charge. The Government offers unusual inducements to the public in the sale of Stamped Envelopes.

§ 379. The Rules of the Office, made in pursuance of instructions from the Post Office Department, forbid persons in its immediate employ, or otherwise connected with its official transactions, from entering upon the floor. It is that no one, whatever his position, will attempt to violate these rules.

Persons having grievances against the Office, on any account, will please report the fact in writing, or in person to the Postmaster or chief clerk.

ENDORSED OR REQUEST LETTERS.

Any letter on which the postage is prepaid, having endorsed upon the outside thereof, in writing or in print, name and address of the writer, if not called for at the Post Office at which it is directed within thirty days, or at a time the writer may direct, will be returned to the writer without additional postage, and without a specified request such return being endorsed thereon.

POSTAL RULES.

Many errors occur by persons not observing the following regulations in depositing letters, papers, or miscellaneous publications in the Office for mailing.

MONEY SHOULD NEVER BE ENCLOSED IN AN ORDINARY LETTER.

Direct letters plainly to the Street and Number, as well as the Post Office, County and State. By inserting letters the County in which the office is located, many errors in superscription might be detected, and mistakes in it avoided.

Head letters with the writer's Post Office and State, Street and Number. Sign them with full name, and in that answers be directed accordingly.

Full payment by Stamps required on all transient printed matter, foreign and domestic.

All letters not prepaid by stamps, all such as are received in the Office with Stamps cut from Stamped Envelopes with such Postage Stamps as were in use prior to 1851, or with Revenue Stamps on them, are treated as "unavailable" and are sent to the Dead Letter Office.

Valuable letters should in all cases be Registered; and when money is designed to be transmitted, Postal Orders (to secure safety in transmission) should, when practicable, be obtained.

A letter once delivered to any one authorized to receive it, cannot be forwarded without additional postage.

THE FOLLOWING CLASSES OF LETTERS ARE NOT ADVERTISED.

Drop Letters unless three cent Postage Stamp is affixed. Letters bearing requests to be returned to the writer bearing the name and address of the writer. Box Letters, Postal Cards, Letters directed and sent to Hotels, and returned to the Post Office as unclaimed. Letters returned from the Dead Letter Office to writers. Circulars, tracts, and other printed documents, speeches, and other printed matter. Official letters from any department of government.

CITY DELIVERY.

The public are requested to adopt the house-door letter boxes, the use of which will result in greatly increased rapidity in the delivery of letters.

Free delivery of letters by faithful Carriers will be secured by having them plainly addressed to the street number.

No necessity exists for persons calling at the office, as all may have their mail matter left at their residence regularly without risk or charge.

ALAMEDA COUNTY

Occupies a central position from north to south, and lies close to the western boundary of the State, being some twelve miles only from the Pacific Ocean at its nearest approach. It extends along the Bay of San Francisco from its northern to its southern extremity, a distance of nearly fifty miles. For this reason it is frequently called a bay county. The northern part of the county is narrow until the middle is reached, where it extends out into the foot-hills and across the Contra Costa Range to the Valley of the San Joaquin. It is bounded on the north by Contra Costa County, east by Contra Costa and San Joaquin, south by Santa Clara County and San Francisco Bay, and west by San Francisco Bay; containing an area of about 800 square miles.

The surface is very beautifully diversified, consisting of plain, valley, hill, mountain and all that varied formation which is necessary for the blending into one form all this wonderful natural scenery.

This county is abundantly supplied with water. Many living springs are found among the foot-hills and mountains, which, combining, form the many sparkling streams that cross the different parts of the valleys, and, finally, empty into the bay.

The towns, of which a complete list will be given, are rapidly growing from small settlements into places of manufacturing and commercial interests. Several of them already numbering inhabitants by thousands, where, but a few years ago, they were counted by tens.

To mention and describe them separately would be but a repetition of merits.

The number following the name indicates the distance from Oakland.

Alameda, 2 S.; Altamont, 39 E.; Alvarado, 16 S.E.; Berkeley, 5 N.; Centerville, 21 S.E.; Dublin, 29 S.E.; Decota, 18 S.E.; Haywards, 14 S.E.; Livermore, 41 S.E.; Midway, 49 S.E.; Mt. Eden, 20 S.E.; Mission San Jose, 29 S.E.; Niles, 22 S.E.; Newark, 20 S.; Pleasanton, 31 S.E.; San Leandro, 9 S.E.; San Lorenzo, 11 S.E.; Sunol, 30 S.E.; Union City, 17 S.E.; Washington Corners, 25 S.E.

This is one of the first counties in the State, as regards the number and general intelligence of its people, the quality and extreme fertility of its soil, and general improvements throughout its territory. Here are found such home comforts and adornments as are to be seen only where intelligence and financial prosperity are combined. The magnificence and usual good taste of the many palatial residences of her honored citizens are unsurpassed, whilst the variety and beauty of natural and cultivated trees and flowers are not excelled anywhere in the world.

It is indeed the home of many of the merchant princes of the metropolis, as well as of her own prosperous business men.

The people are engaged in all the known methods of accumulating wealth. Farming, manufacturing, merchandizing, shipping, horticulture, fruit-growing, stock-raising, mining, fine arts, professional employments, etc., etc.

The farmers produce great crops of wheat, barley, corn, oats, hay, potatoes, etc., and raise sheep of the best thorough-bred fleece-growers, as well as those that make the choicest mutton.

Manufacturing embraces shops and machinery for the building of all kinds of agricultural implements of the most approved patterns; all classes of vehicles, from the farm wagon to the finest carriage or barouche; earthenware for every desirable purpose; furniture of the most substantial and superb designs; builders' materials in every shape and form; brooms, cordage, artificial stone, etc. The salt manufactories are rather extensive, extending along

the bay from near San Lorenzo to Alvarado. Hundreds of tons are here gathered from the immense evaporating-pans prepared for the purpose, and sent to the refineries. The process is, indeed, very simple. At Spring or high-tide, monthly, large quantities of water from the bay are taken into large, shallow ponds, covering in some instances many acres; here evaporation and absorption reduce the water to a heavy per cent. of saltiness, when it is drawn off into pans having earth-hardened bottoms, to complete the evaporation. The salt is then scraped from these pans and sent to the refinery. This process is repeated monthly during the dry season of the year. During the rainy season more rain falls than would equal the evaporation, hence the work must be suspended.

The horticulturists of the county are among the most successful in the State, as can be shown by their fine productions to be found in the various markets of the cities and towns. Many of these are Portuguese, who have been trained especially for this work.

The fruit-growers produce for the markets the most perfect, delicious, and varied fruits in season.

The educational facilities are the pride of the people. With a splendid system of common schools, under the direct supervision of a County Superintendent, whose time is given exclusively to school management; graded schools in all the important towns; in some, grammar and high-schools, with business colleges, academies, seminary and State university, all within her borders, and well managed, if the children do not become learned men and women it cannot be for want of opportunities.

Church organizations, representing all the leading denominations of the world, are so located that those who desire may worship with the congregation of their choice.

Newspapers ably managed and edited with marked ability are issued daily and weekly from almost every hamlet of the county. These, with the city papers, keep the people well informed of passing events and late discoveries in science and art.

The spirit of public improvement manifests itself largely in railroads for steam and horse; in a splendid Court-house, costing \$200,000, fine school-houses, etc., etc.

Oakland, the County-seat and principal city, is very beautifully located, just across San Francisco Bay from the City of San Francisco, and has a population of nearly 30,000. This young city has made very rapid strides from a small and unimportant town to a city whose splendor and magnificence, whose commercial and manufacturing interests, present and prospective, are second only to those of the metropolis. The great natural beauties that surround it, in mountain, hill, meadow, wood-land, lake and bay, the very salubrious and agreeable nature of the climate, and the many arrangements for the comfort of its people, will ever make this one of the favored homes of those who know, or may learn, of its wonderful charms.

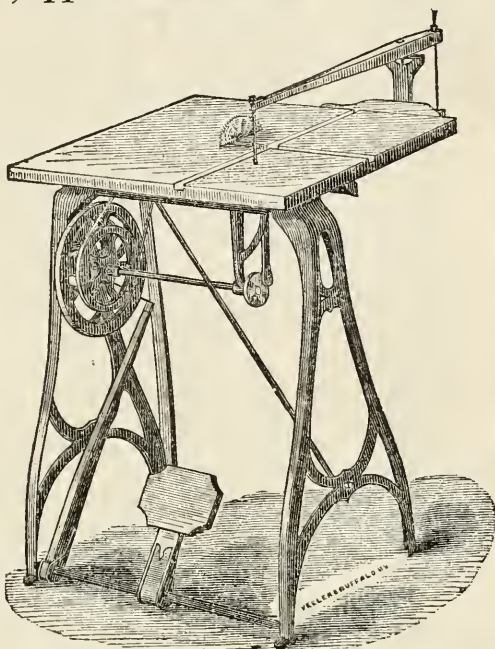

Schools of the first-class, ably-managed churches of all denominations, ready and cheap communication with the great city of the Pacific, all tend to render this the favored nucleus around, and in which the millions will cluster in ages to come. Its boundaries are capable of almost illimitable extension northward to and beyond the beautiful site of Berkeley; and southward, through East Oakland and Fruit Vale, a fine place for residences.

EXCELSIOR IMPROVED WIND-MILL.

The opinion has become too prevalent that wind-mills are not to be relied upon, either to withstand violent storms, or to perform their work in very light winds. Such opinion is doubtless true in regard to many, perhaps a majority, of mills; nevertheless, it is an injustice to the few mechanics who have made the wind-power a study and a specialty for many years, to class their productions with those of a large number, who pretend to be wind-mill makers, but who comparatively have little experience, or practical knowledge of the business.

We were the inventors, more than ten years ago, of the single, cross-vane wind-mill. The demand for them gradually increased until they have come into more general use than any other mills. Of course, other parties were induced to make an imitation of them, and some to make use of its name, "Excelsior." A man is desirous of purchasing a wind-mill, and starts in pursuit of the factory. Presently he sees a sign "WIND MILLS," walks in and inquires, "is this the place where they make the Excelsior Wind-Mill?" The answer is, "Yes, sir; O, yes, we make them," or words to that effect, and the gentleman really thinks he is purchasing an EXCELSIOR. We have recently caused the name to be registered in the U. S. Patent Office as our Trade Mark, and hereby caution all persons not to make unlawful use of the same.

The EXCELSIOR was awarded the first and cash premium at the Cal. State Agricultural Fair in 1872—the only time ever exhibited there. It has taken a larger number of premiums at the Mechanics' Institute Fairs in San Francisco, than any other wind-mill.

The EXCELSIOR is adjustable and self-regulating, is very substantially built, and with reasonable care will last twenty or twenty-five years. Its construction is simple, and can be easily erected by those who are not mechanics. They will run in lighter winds than

any other wind-mill, and violent storms will seldom injure them. They are always under perfect control, a child being able to operate them.

The cut, engraved from a photograph—represents their style and appearance.

They are made in twelve sizes, from twelve feet to forty feet diameter of wheel. A larger stock and assortment kept on hand than can be found in the State. Every mill fully guaranteed.

ZIMMERMAN'S GARDENS OAKLAND.

The Management of the above Gardens respectfully announce to their friends and the public generally, that these Gardens have undergone extensive and elegant repairs; having built a large and very fine

DANCING and MUSIC PAVILION,

Which has been thrown open to the public, together with numerous other attractions, such as Shooting Galleries, Bowling Alleys, etc., EVERY SUNDAY, during the day and evening.

A fine Orchestra and Band are engaged to enliven the occasion, interspersed with Sparkling Lager Beer, and an elegant repast that would please the most fastidious.

COME ONE! COME ALL!

You cannot spend a Sunday more pleasantly than by visiting this new attraction. The best of order shall prevail, in consequence of which this is and will be the most popular resort for men with families, who are especially invited.

All Alameda Trains stop at these Gardens, corner Third and Alice streets.

THE SCHUTTLER WAGON

For more than thirty years has been the favorite Wagon with Farmers, Freighters, Planters and the Public. It is superior in Strength, Durability and Lightness to any other Wagon. It is warranted to run lighter, wear longer, and afford better satisfaction than any wagon in America. The Best is always the Cheapest in the end, and buyers should look to their interest when purchasing a wagon, to get one that is well made and of the best materials; one that is no experiment, but that has an established reputation for excellency.

THE REGULATOR WIND MILL.

Is unequalled for beauty, simplicity, durability and power. It is so constructed as to run in a lighter breeze than other mills. It regulates itself, and runs about the same whether in high winds or moderate. A wind of sufficient force to injure other mills will throw the Regulating Vane of this Mill down and thus turn the wheel edgewise to the wind. The greater the force of the hurricane the less sail surface of the wheel is exposed, and it thus protects itself against the wreck to which other mills are liable.

THE DEERE GANG PLOW

Is too well known to require any particular or extended mention of its excellencies. There are several thousands of them in operation on this coast, each of them working out a better reputation than could be written for them. They are simple, strong, durable; have Iron Beams, Iron Frames and Iron Wheels, and are guaranteed in all essential points superior to any other Gang Plow made. They have no complications of Levers or Gearing.

TO THE PUBLIC.

It is not usual for a physician to issue an advertisement, but at the present time, when "charlatanism" is so rampant, something should be done to stop it, and if the distribution of these few lines will help to do so, by bringing before the community the address of a qualified physician, the doctor's object will be effected. It may cut the tender sensibilities of some, who consider it "derogatory" to advertise, but in the opinion of the doctor it is one of the surest methods of stamping out the evil.

OFFICE HOURS, from 8 to 12, 1 to 4, and 7 to 9.

A SPECIAL ADDRESS TO THE NERVOUS AND DEBILITATED,

Whose sufferings have been protracted, and whose cases require prompt treatment to render existence desirable. Reader, this article may not concern you at all. If you have never suffered from disease of the urinary organs, it is not necessary for you to read this. If you are suffering, or have suffered, what effect does it produce on your general health? Do you feel weak, debilitated, easily tired? Does a little extra exertion produce palpitation of the heart? Does your liver or urinary organs or kidneys frequently get out of order? Do you have spells of short breathing or dyspepsia? Are your bowels constipated? Do you have spells of fainting, or rushes of blood to the head? Is your memory impaired? Is your mind constantly dwelling on this subject? Do you feel listless, moping, tired of company, of life? Do you wish to be left alone—to get away from everybody? Does any little thing make you start or jump? Is your sleep broken or restless? Do you often feel ashamed of yourself, thinking everybody that looks at you knows what is the matter with you? Is the luster of your eye as brilliant? The bloom on your cheek as bright? Do you enjoy yourself in society as well? Do you pursue your business with the same energy? Do you feel as much confidence in yourself? Are your spirits dull and flagging, given to fits of melancholy? If so, do not lay it to your liver or dyspepsia. Have you restless nights? Your back weak, knees weak, and have but little appetite, and do you attribute this to dyspepsia or liver complaint? Did you ever tell your doctor that you had suffered from badly cured disease? Perhaps you never thought of confiding these things to him; and if you had, it is a question whether his modesty would have allowed him to question you closely on the point for fear of offending you; and if he had expected anything of the kind, being your family physician, he durst not for the world have hinted at the thing, for fear of your becoming indignant and insulted.

To the young, middle-aged, and even old, who are destroying that physical strength, and mental happiness, or who are weakened by the folly of the past, why do you suffer when you must know the sure result if you allow the disease to ruin and debase you, mind and body? Readers, be warned in time; let no false modesty keep you from making known your troubles and receiving a sure and lasting cure. I have cured thousands, and will cure you if you will call at once. A short time under my treatment will make you a new man, and send you forth into the world an honor to your sex, and, I trust, a blessing to mankind.

LADIES.

DR. PRING has devoted much of his time to the study of diseases peculiar to your sex, and knowing that you are subject to a great amount of suffering, that delicacy on your part, in not making it known, has a strong tendency to prolong, he, as a physician, (consulted daily by numbers of ladies,) says to you, come, try his treatment, being better and far more successful than that usually adopted. Those languid, tiresome sensations, causing you to feel scarcely able to be on your feet, that continual strain that is constantly undermining your system, the loss of all your former elasticity, irregularities and obstructions to the proper and healthy workings of your system and driving the bloom of youth prematurely from your fair cheeks, succumb to the doctor's unrivaled treatment. Consultation free. You will receive a competent opinion in every case. If you should prefer consulting the doctor by letter, be assured all communications will be strictly confidential.

This card is especially addressed to sufferers from Nervous Debility and all diseases of the nervous system resulting from exhaustion of nerve power, the effect of indiscretion. Under the doctor's new special treatment of nervous debility, mental and physical depression, palpitation of the heart, noises in the head and ears, indecision, impaired eyesight, memory, indigestion, loss of energy and appetite, pains in the back, timidity, dizziness disappear, and the depressed system soon acquires its normal health and strength, secures long life, and the infirmities of old age are avoided. Thousands of sufferers have been restored to health after all remedies have failed.
